

Hey There

Wheat sounds good but you must figure the cost of production. The profit tumbles when production costs too much. Watch both ends of the game and don't let poor machinery reduce your profit. Look at the prices below and add the saving to the price of wheat. It is a matter of good dollars and good sense. Your good sense will not allow you to lose good dollars

To Girls on Other Streets.

A message from Walter Williams of Columbia to girls on 8th street, should be wholesome diet for a lot of girls on steen street. Read it and be wise before it is too late.

"Some fevers are worse than typhoid. There's a girl on 8th street—she's on some street most all the day—who has the boy fever. She's only 15 years old, poor silly creature, and has just let her dresses down and put her hair up. She cannot be happy, she thinks, without a boy by her side. She flaunts herself in the faces of the boys and the mother who should have more gumption permits, if she does not encourage her small daughter's boy hunts. It is not so much the lack of refinement on the part of the mother that is to be condemned.

Everybody lacks refinement in some degree or another and with reference to something. But a mother who permits her daughter to chase around town after boys lacks common sense. She shouldn't have any daughter and I won't have any daughter long—at least one she will be proud of as her own. It is bad enough to have the boys run around town, spend their time loafing on the street and grow up without parental care. That girls should be allowed to do so is worse. This may be high treason in a community where we have given over society to the control of fledglings and declared that parents have no rights that the children are bound to respect. Speaking of municipal ownership a city spanking machine would be worth more to any town's welfare than a road grader or Moore's lake. The 8th street girl should be taken in hand and then run through the spanking machine. That might help cure her of the boy fever and again it might not. At any rate it would be a lesson for other girls."

Be aware of Ointments for Catarrh that contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is in a small bottle, and is made in Toledo, O., by F. J. Cheney & Co. Testimonials free. Sold by Druggists, price 75c. per bottle. Hall's Family Pills are the best.

Money To Loan on Improved Farms

A large per cent of our wealthy citizens can trace their financial success to borrowed capital. Many a man is kept from enjoying this valuable asset to business life because of the embarrassment in arranging for a loan of this kind among home folks, where one's business is everybody's business and the knowledge of such a transaction is liable to injure one's credit. To avoid such unpleasantness, I shall be pleased to place my funds at your disposal at a reasonable rate of interest. The same will apply if you wish to renew a loan. We can do the business quickly and safely through the mails if inconvenient to call at my office. Address
